

ezRack Solar Ballast Fix

The ezRack Solar Ballast Fix has been developed to fix with the universal PV modules installation on the roof or open space ground. The innovative and patented designs make it easy to connect multi-units to be the whole to meet the practical demand on the installation site. The high degrees of pre-assembly eliminate the need for onsite cutting or welding and enables quick and easy field PV module installation.

- Easy Installation
- Great Flexibility
- Excellent Compatibility
- Excellent adaptability
- Designed to high standards
- Guaranteed durability

Features	CLENERGY
Installation Site: Open space ground	
Module Slop: Up to 60°	
Height: Up to 20m	
Wind Load: 60m/s	
Snow Load: 1.4KN/m ²	
PV Modules: Framed	
Module Orientation: Vertical	
Module Width: Any	
Standard: AS/NZS 1170 and other international standards	
Support Rail: Extruded aluminum	
Color: Natural	
Warranty: 10 years durability on material
